Additional Comments	
<p>GTIN: (Global Trade Item Number) is a globally unique 14-digit number used to identify products in the supply chain. The GTIN, as well as other key product attributes, are automatically identified when a 2-D bar code is scanned.</p> <p>LOT: (Lot Number) is combination of letters, numbers, or symbols from which the complete history of the manufacturer, processing, packing, holding, and distribution of a batch or lot of drug product or other material can be determined.</p> <p>EXP: is the product expiration date.</p> <p>SN: (Serial Number) is a unique serial number that is placed on the saleable unit to identify that unit which can be verified by Meitheal.</p>
